

Vo Dinh Tai

DEVICE DEVELOPER

I'm a software developer having experience in creating single-page applications using technologies such as Flutter, WPF. I'm familiar with project management tools like git, and Jira. I'm looking for a role as a device developer. With logical thinking skills & a creative mindset, I want to become one of the key members who bring an effective IT solution to the customers. At the same time, I want to improve my knowledge through your professional working environment.
